

Lead-A-Way

Lead-A-Way is an opportunity for junior high students to unlock their leadership potential! Participants will learn how to stand out as leaders just like the amazing women they will explore in the program. Lead-A-Way focuses on improving communication skills and public speaking, practicing collaborative teamwork, and investigating what integrity means through activities and team projects. This program emphasizes using leadership traits to help make positive changes in individual lives and the world. Girls will build a toolkit for personal and community success to carry through junior high, high school, and the rest of their lives.

Through team projects and activities students explore

- communication and public speaking skills
- collaborative teamwork and integrity
- how their own innate leadership traits can make a difference in their own lives and communities
